LOOKING FOR
Product leadership roles in data, experimentation and AI · available now

SCOPE
Led teams of 10 to 20 product managers; telemetry from 1B+ Windows devices

BACKGROUND
Product leader since 2008, software engineer and team lead before that

SUMMARY

Principal product leader with more than a decade at Microsoft building the data products, metrics, experimentation platforms and ML-powered insights that decide what ships across a billion-plus Windows devices. I led teams of 10 to 20 product managers, turned telemetry and customer signals into decision systems used by engineers and product leaders, and kept building myself, most recently in AI.

KEY ACHIEVEMENTS

250%+
growth in monthly active spatial-audio devices

1B+
Windows devices informing product decisions

15%
increase in Windows adoption

30%
reduction in customer issues

SKILLS

Product strategy and roadmaps · Data platforms and telemetry · Experimentation and A/B testing · Machine learning and AI products · Metrics and decision systems · Leading PM teams (10 to 20 PMs) · Stakeholder and executive communication · Go-to-market and partnerships · Software engineering background (C#, .NET)

EXPERIENCE

Dec 2024 - Sep 2026

Principal Group Product Manager - Windows & Devices Data

Microsoft · Redmond, Washington

Led the PM team responsible for the data, insights, experimentation, and machine learning models that power decision-making across Windows and Devices.

- Led a team of 10 to 20 product managers, as the team grew and was reshaped, driving experimentation, customer-signal analysis, and ML-powered insight products.
- Owned strategy and roadmap for the data platform and insights products Windows engineers and PMs use to ship higher-quality releases.
- Partnered with engineering, data science, and research leadership across telemetry from more than a billion Windows devices.
- Set the direction for how AI and ML were used internally to accelerate Windows product development.

Feb 2020 - Dec 2024

Principal Product Manager Lead - CSX Data

Microsoft · Redmond, Washington

Built data products that told the story of the Windows customer experience and informed continuous improvement.

- Led the product managers who wove customer signals and machine learning together into insights Microsoft engineers acted on.
- Enabled data-supported decisions on hardware, software, and services quality, from the Insider preview channels to retail.
- Helped teams detect and address issues affecting customer experiences faster.

Sep 2019 - Feb 2020

Principal Product Manager Lead - Azure DevOps

Microsoft · Redmond, Washington

Defined new products, go-to-market strategies, and business decisions for the Azure DevOps Platform.

- Increased market penetration through new product and business strategy.
- Spearheaded rapid product analysis for a new product priority following GitHub's acquisition.

Jan 2018 - Sep 2019

Principal Product Manager Lead - Silicon, Graphics, Media

Microsoft · Redmond, Washington

Led audio, spatial audio, game streaming, xCloud, Game DVR, broadcast, and casting initiatives.

- Led the Microsoft Spatial Audio Platform across Windows, Xbox One, and new platforms.
- Grew monthly active devices playing spatial audio by more than 250% over 1.5 years.

Sep 2017 - Jan 2018

Principal Product Manager - Silicon, Graphics, Media

Microsoft · Redmond, Washington

Drove the Windows Sonic spatial audio platform for Windows and Xbox One while representing Microsoft at developer and game conferences.

- Drove the launch of Dolby Access v3 and DTS Sound Unbound with new app services, licensing, and customization models.
- Built partnerships with Surface, Store, Marketing, and Gaming to expand spatial audio to more endpoints and games.

Oct 2008 - Aug 2017

Senior Product Manager - Silicon, Graphics, Media

Microsoft · Redmond, Washington

Developed the Spatial Audio Platform, including Windows Sonic, for Windows and Xbox One.

- Shipped platform technology spanning audio, media, and connected entertainment experiences.
- Built the technical and partner foundation for a portfolio of spatial audio patents.

EARLIER CAREER · BELGIUM

Jan 2005 - Dec 2006

Lead Developer and Team Lead, Compuware · Belgium
Led a team of about 15 developers and the Project Support Office for Fluxys.

Jan 2004 - Dec 2005

Software Developer, Cosmos · Antwerp Area, Belgium
Built and supported software components across C# client and Java server systems using CORBA middleware.

Jan 2001 - Dec 2004

Developer and Trainer, Info Support · Belgium
Developed distributed .NET applications and trained teams across multiple organizations.

EDUCATION

Bachelor's degree, Computer Science
Karel de Grote, Belgium · 2000 - 2004

Languages
Dutch and English (native), French (intermediate)

HONORS

- Microsoft Lighthouse Award for Teamwork · Jan 2012
- Microsoft Compass Award for Individual Excellence · Jan 2011
- Microsoft Gold Star Award · Jan 2011
- Most Valuable Professional (MVP): VS Team System · Jan 2006

PATENTS AND PRESS

19 granted US patents, 7 published applications
Spatial audio, streaming, media and device telemetry, assigned to Microsoft. Press in Forbes and Windows Central on the spatial audio work; Build 2016 speaker. Full list: steven.wilssens.com/patents
